		<p>services, etc. The renewal application was based on actual utilization (per Pam Hovis). This number will be looked at again before submitting. The Division needs to pull these numbers.</p> <ul style="list-style-type: none"> - • 44. How many individuals are currently self-directing their services? ▪ Questions asked of Appendix E-1(n) Goals for Participant Direction: <ul style="list-style-type: none"> - <i>Comprehensive Waiver Only</i> <ul style="list-style-type: none"> • 62. Please explain the factors that lead the state to expect growth of more than 500 new participants utilizing self-direction in year 1 of the waiver renewal. 	
<p>Questions asked of QIS – D: Service Plan</p> <p>Adult Day Waiver Only</p>	<p>Work Group</p>	<p>82. Sub-Assurance a – None of the performance measures address whether service plans address all participants’ personal goals.</p> <p>The sub-assurances are being looked at by the QI group. The PCP group had the following thoughts/ideas to share with the QI group:</p> <p>Address by including how these are addressed via file review, assessments, Therap data points, etc.</p>	<p>None at this time.</p>

NEBRASKA DDD/MLTC WAIVER WORKGROUP: PERSON CENTERED PLANNING
MARCH 31, 2016

Topic	Person Responsible	Discussion	Action Item
	Work Group	<p>83. Sub-Assurance c – The second performance measure does not adequately address the sub-assurance. It should be revised to address the number/percent of service plans that needed to be revised and were revised based on a change in need.</p> <p>Unless there is addendum to change this, it would be difficult. This was talked about at length yesterday in another Work Group meeting. Easily address the percent, numerator, and denominator. Identifying how you assess if there is a change of need is more difficult. Don't have data to access that it is changed when it needs to be.</p> <p>You have to look at monitoring's as well. How specific do we get when doing file reviews, etc. Ex. Starting Oxygen when you've never been on before would be a data point to track. Things along these lines.</p> <p>We have to be more specific. Define what the significant change is first.</p> <p>How many should have been changed, that weren't. Defining "should have been changed" is key.</p> <p>Identify a significant change as a certain type of med change, etc.</p>	None at this time.

NEBRASKA DDD/MLTC WAIVER WORKGROUP: PERSON CENTERED PLANNING
MARCH 31, 2016

Topic	Person Responsible	Discussion	Action Item
Questions asked of QIS – D: Service Plan Comprehensive Waiver Only	Work Group	109. Regarding sub-assurance (a): None of the PMs measure whether service plans address all participants' personal goals. We request that the state either revise the current PM or add an additional PM to measure that all participants' goals are addressed in the service plan.	Similar to above. (83) No additional comments.
	Work Group	110. Regarding sub-assurance (c): The second propose PM does not adequately address the sub-assurance. This PM only provides the number/percent of total service plans that were revised due to a change in a person's needs, not the percent of service plans that needed to be revised and were revised. Please revise this PM to appropriately measure the sub-assurance.	Similar to above. (83) No additional comments.
	Work Group	111. Regarding sub-assurance (d): How will the state determine whether participants have received the appropriate type, scope, amount, duration, and frequency of services specified in the IPP? Now that we are in Therap with Service Authorization and codes, billing, etc. this should be fairly easy to determine from these numbers. Monitoring needs to be done as well and ensure it is being completed as developed.	No additional comments.

NEBRASKA DDD/MLTC WAIVER WORKGROUP: PERSON CENTERED PLANNING
MARCH 31, 2016

Topic	Person Responsible	Discussion	Action Item
		<p>Discussion should start at IFM. Does the Service Authorization match the ISP? Has the person met their goal(s).</p> <p>There is always a benefit to poll a third part to ensure it all matches accurately.</p>	
Other	Work Group	<p>Other Questions Asked:</p> <p>How do we monitor the SC's? Are the SC's being Person Centered during team meetings, etc?</p> <p>Group discussion focused not just on a documentation review but in vivo supervision of team meeting facilitation etc.</p>	No additional comments.
Next Meeting:	Bernie/Jill	Central Office is going to re-submit the working draft of things we have talked about to CMS. Perhaps put hold on meeting again until we get back from CMS anything that needs follow-up. By submitting working draft, we are staying ahead of the final deadline. Once we get	None at this time.

NEBRASKA DDD/MLTC WAIVER WORKGROUP: PERSON CENTERED PLANNING
